

## 2nd Assignment,

**Target:** Reading data from file and plot graphs by using for loop.

### Details:

- 1- Get file data of 1.txt.
- 2- plot data of 1.txt by using for loop in new graph.( x values will be first column and other columns will be y values of every line in graph)
- 3- Get files data of 2.txt – 6.txt by for loop
- 4- Plot data of 2.txt, 3.txt, 4.txt, 5.txt, 6.txt by for loop in same graph. (x values will be second column and y values will be first columns)
- 5- All graphs will have legend and grid
